For The Years Ended June 30, 2015 and 2014

This section of the City of St. Louis Mental Health Board of Trustees ("MHB") annual financial report presents our analysis of MHB's financial performance during the fiscal years that ended on June 30, 2015 and 2014. Please read it in conjunction with the financial statements that follow this section.

FINANCIAL HIGHLIGHTS

- MHB's net position as of June 30, 2015, decreased by \$1.17 million or 5.0% compared to June 30, 2014 due to planned reductions of reserves and a cumulative increase in certain pension obligations as the result of the adoption of GASB Statement No. 68 Accounting and Financial Reporting for Pensions, and GASB Statement No. 71 Pension Transition for Contributions Made Subsequent to the Measurement Date (the "GASB Statements").
- MHB's 2015 tax revenues were less than budgeted by \$0.14 million or 1.3% primarily due to lower than expected property tax revenues collections.
- MHB's 2015 expenses were less than budgeted by \$0.50 million or 3.6% primarily due to lower than anticipated funding of certain agency contracts.
- MHB's implementation of the GASB Statements during fiscal year 2015 required Beginning Net Position to be restated in the June 30, 2015 financial statements to record the net pension liability, deferred outflows and deferred inflows.
- Capital assets of \$43,000 were added in conjunction with the implementation of a new project management system.

THE FINANCIAL REPORT

MHB's financial statements consist of the following parts:

- Management's Discussion and Analysis ("MD&A")
- The basic financial statements, which include the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows, along with the notes to the basic financial statements.
- Additional Information

MHB follows GASB guidance which establishes accounting and financial reporting standards for general purpose external financial reporting.

The implementation of the GASB Statements required MHB to restate net position as of July 1, 2014, to reflect its share of the net pension liability from participation in the Employees' Retirement System of the City of St. Louis (the "Pension Plan"). The FY 2014 information included in this MD&A is presented without adjustment for the impact of the GASB Statements. The information needed to restate MHB's net position as of July 1, 2013, is not available.

For The Years Ended June 30, 2015 and 2014

THE STATEMENT OF NET POSITION AND THE STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

These statements help to illustrate the status of MHB resulting from the years' activities. The statements include all assets, deferred outflows, liabilities and deferred inflows using the accrual basis of accounting. In this method, all of the years' revenues and expenses are taken into account regardless of when cash is paid or received.

The majority of MHB's activities are financed from property taxes collected by the City of St. Louis Office of the Assessor.

STATEMENTS OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

OPERATING REVENUES AND EXPENSES

The following table reflects the revenues and expenses resulting from MHB's activities for the years ended June 30, 2015 and 2014:

Condensed Statements of Revenues, Expenses, and Changes in Net Position (In thousands of dollars)

	FY2015 (Post GASB Statements)					Dollar Change	Total Percent Change

Ending Net Position	\$	22,229	\$	23,396	\$	(1,167)	(5.0)%

A review of the 2015 statement of revenues, expenses, and changes in net position indicates the most significant component of revenues are tax revenues of \$11.4 million. Property tax revenues represent \$10.7 million of this total. Another major source of revenues is operating grants which consist of federal grants totaling \$0.9 million.

Major expenses relate to projects and grants that provide direct funding to local agencies performing a variety of services in the community.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

MHB and management considered many factors when setting the Fiscal Year 2016 budget. Factors include the approved property tax rates and the economy. Property tax rates for the upcoming budget year are 9 cents and 19 cents per \$100 assessed valuation for the Mental Health Fund and the Community Children's Services Fund, respectively.

For The Years Ended June 30, 2015 and 2014

BUDGET INFORMATION

Total revenues are expected to increase by \$0.3 million in 2016 primarily as a result of an anticipated increase in tax revenues and additional federal funding.

Total expenses are expected to increase by \$0.9 million primarily due to expenditures related to federal contracts.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Reporting Entity

The City of St. Louis Mental Health Board of Trustees ("MHB") is a public authority which derives its authority from RSMo. 205.975-205.990, effective January 2, 1991. MHB uses Mental Health Fund ("MHF") receipts to provide services directly and/or by contract with any public facilities or not-for-profit corporations which in turn provide programs and services to promote the mental health of residents of the City of St. Louis, Missouri by enhancing the availability and accessibility of essential community mental health and substance abuse programs. The passage of Proposition K by City of St. Louis voters in November 2004 created the Community Children's Services Fund ("CCSF"). CCSF's focus is to fund a wide range of programs and services which give children in the City of St. Louis a safe environment and opportunities to succeed.

CCSF has been established as a legally separate entity. However, because MHB is effectively the same as the governing body of the CCSF, MHB's ability to significantly influence operations and MHB's accountability for fiscal matters, the CCSF is reported as if it were part of MHB. Separate financial statements for the CCSF are not available.

The City of St. Louis, Missouri (the "City"), has accountability for MHB because it appoints MHB's governing board. As such, MHB is considered a related organization of the City for financial reporting purposes.

MHB is fiscally independent of the City; therefore, the City is not financially accountable for MHB.

Basis of Presentation and Method of Accounting

The financial statements of MHB have been prepared on the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America ("GAAP"), as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental and financial reporting principles.

MHB's financial statements are presented in accordance with the provisions of GASB guidance that establishes the manner in which MHB records transactions and presents financial information. GASB guidance also requires that the financial statements be accompanied by a narrative introduction and analytical overview of the entity's financial activities in the form of "management's discussion and analysis."

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

June 30, 2015

Appropriations

MHB appropriates funds for specific projects and programs to be expended for the following year's program service funding period July 1, 2015 to June 30, 2016. These funds are to be distributed to various agencies which then provide programs and services to eligible individuals in the City.

Compensated Absences

Accumulated unpaid vacation expense and a portion of the Executive Director's sick leave are reported in the period earned and are accrued in the accompanying financial statements until used. All other accrued sick leave is lost upon termination and accordingly is not recorded in the financial statements.

Property Tax Collections and Expenses

MHB's principal source of revenue is property taxes levied and collected by the City on MHB's behalf. Taxes collected in one month are often distributed to MHB in the subsequent month. Consequently, property taxes are recognized as revenue only to the extent they have been collected by the City's Collector of Revenue. Undistributed taxes held by the the City's Collector of Revenue are included in taxes receivable. Undistributed taxes totaled \$100,561 at June 30, 2015.

MHB has adopted a fiscal year that begins July 1 each year. Property taxes are collected several months prior to the start of the fiscal year. This creates a balance in cash and cash equivalents, and investments at the end of the fiscal year that will be used to pay for the services approved for the fiscal year beginning July 1. The amount of these approved services are part of unrestricted net position.

Cash and Cash Equivalents

MHB considers all short-term investments with an original maturity of three months or less at the time of purchase to be cash equivalents.

Investments

Investments are presented at fair value, excluding investments in certain debt instruments with a remaining maturity of one year or less at time of purchase, which are reported at amortized cost. Unrealized gains and losses are included in the statement of revenues, expenses, and changes in net position.

June 30, 2015

Capital Assets

Capital assets are stated at cost. Major additions and improvements are capitalized, while maintenance and repairs are expensed as incurred. When assets are sold or otherwise disposed of, the related cost and accumulated depreciation are removed from the accounts. Any gain or loss arising from such disposition is included as income or expense in the year of disposition.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

The estimated lives for computing depreciation on capital assets are three to seven years.

Components of Net Position

Investment in Capital Assets

Investment in capital assets consists of the cost of furniture and equipment, and software, net of the related accumulated depreciation expense.

Unrestricted

<u>Appropriated for Grants, Partnerships, and Initiatives</u> - Funds committed for specific grants, project expenditures and collaborative programs in the fiscal year 2016 are designated as appropriations.

<u>Investment in Mental Health Supported Housing Loans</u> - Loans issued to agencies for housing projects expected to be forgiven in future years.

<u>Designated for Unanticipated Projects</u> - Funds designated by MHB for grants, project expenditures and collaborative programs in the fiscal year 2016 which have not yet been appropriated for specific agencies/projects.

<u>Designated for Administration</u> - Funds designated for administration of projects in fiscal year 2016.

<u>Designated for Contingencies and Long-term Reserve</u> - MHB has established a fiscal policy which requires maintaining a reserve for emergency or unanticipated needs (contingencies) and a reserve that may be used for unusual expenses or operational shortfalls (long-term reserve). Under the policy MHB shall maintain aggregate contingency and long-term reserve funds of between 25 and 100 percent of annual non-federal expenditures. The policy currently states that the contingency and long-term reserve shall be 7 and 31 percent, respectively, of annual non-federal expenditures.

June 30, 2015

Operating Revenues and Expenses

MHB classifies all operating and non-operating revenues and expenses in the same manner that individual transactions are classified for cash flow purposes under GASB guidance.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will periodically report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statement of net position will periodically, report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Subsequent Events

Subsequent events were evaluated through November 19, 2015, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

The accounting principles governing the reported amounts, presentation and related disclosures are subject to change from time to time based on new pronouncements and/or rules issued by various governing bodies. GASB is responsible for establishing GAAP for state and local governments.

In February 2015, the GASB issued Statement No. 72 Fair Value Measurement and Application. This statement addresses the accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to all fair value measurements. MHB is required to implement this statement for the year ended June 30, 2016. MHB is currently evaluating the impact, if any, the new guidance will have on its financial statements.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

B. CHANGE IN ACCOUNTING PRINCIPLE

During the year ended June 30, 2015, MHB adopted GASB Statement No. 68 Accounting and Financial Reporting for Pensions, as amended by GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date (the "GASB Statements"). The major changes associated with the GASB Statements required MHB to record its proportional share of the net pension liability from participation in the City's pension plan. It also established certain deferred outflows and inflows of resources related to pension plan activity (Note G).

Net position as of July 1, 2014, has been restated as follows for the implementation of the GASB Statements:

Net Position as previously reported at June 30, 2014:	\$ 23,396,115
Prior period adjustment:	
Net pension liability (measurement date as of	
September 1, 2013)	(372,663)

June 30, 2015

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. MHB has a formal investment policy that limits investment maturities to five years as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk of Debt Securities - Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. MHB has a formal investment policy that limits its investment choices.

Credit ratings of debt securities at June 30, 2015, are as follows:

	AAA	AA		Α		BBB	<u>Unrated</u>
Agency securities	\$1,867,590	\$	-	\$ -	\$	-	\$ -

Custodial Credit Risk - Custodial credit risk is the risk that in the event of the failure of the bank or counterparty, MHB will not be able to recover the value of the investment or collateral securities that are in possession of an outside party. Protection of MHB's investments is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution, or by a single collateral pool established by the financial institution.

Concentration of Credit Risk - Concentration of credit risk is the risk of a loss attributed to the magnitude of MHB's investment in a single issuer. MHB's investment policy prohibits investment in bankers' acceptances and commercial paper by the same issuer in excess of 5 percent of the total market value of the portfolio. MHB also established a set of diversification standards by security type and by issuer as a means of limiting its exposure to concentration of credit risk.

Investment income for the year ended June 30, 2015, is as follows:

Interest and dividend income, net of fees	\$ 192,132
Amortization of premium	 (63,321)

June 30, 2015

D. MENTAL HEALTH SUPPORTED HOUSING LOANS RECEIVABLE

MHB maintains a Housing Acquisition Initiative ("Housing Project") in order to increase the quality and quantity of housing available for persons with serious mental illness and those completing substance abuse treatment who need subsidized housing. Currently, five agencies (the "Agencies") have received support from the funds allocated by MHB for the Housing Project. As a part of the Housing Project, MHB committed to provide 10 year forgivable loans to the Agencies. In 2015, loans made to the Agencies amounted to \$270,712. The proceeds of these loans were used to finance renovation and improvement of residential properties, which are owned by the Agencies, into affordable housing for the mentally ill. Housing loans outstanding as of June 30, 2015 totaled \$1,048,437.

On each anniversary of the loans, one tenth of the outstanding principal balance, plus all accrued interest at 4 percent, will be forgiven. Also, upon the maturity date of the loan, the remaining principal balance and accrued interest shall be deemed satisfied and discharged. The loans mature through August 2024.

During 2015, \$109,819 was forgiven on mental health supported housing loans receivable consisting of \$80,063 principal and \$29,756 interest.

E. CAPITAL ASSETS

2017	66,266
2018	67,397
2019	 5,616
	\$ 203,637

June 30, 2015

Financial awards from the federal government in the form of grants are subject to special oversights and audits. These audits could result in claims against MHB for disallowed costs. No provisions have been made for any liabilities that may result from such audits since the amounts, if any, cannot be determined.

MHB committed approximately \$11,467,000 to fund programs and service contracts with various organizations for fiscal 2016. The Board of Trustees of MHB approved the commitments during fiscal 2015 board meetings. The payments to the organizations are contingent on the services being performed.

G. PENSION PLAN

Plan Description

MHB contributes to the Employees' Retirement System of the City of St. Louis (the "Plan") which is a cost-sharing multi-employer defined benefit retirement plan. The Plan is administered by a separate Board of Trustees, members of which are appointed by City officials and plan participants. All non-uniformed employees of the City and certain other public entities funded by or providing services to residents of the City become members of the Plan upon employment with the exception of employees hired after attaining age 60.

The Plan issues a publicly available annual report that includes financial statistics, an actuarial valuation, and the required supplementary information. Benefits

The Plan provides for defined benefit payments for retirement, death, or disability to eligible employees or their beneficiaries based upon creditable service, final average compensation, and a benefit compensation base.

Contributions

The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate assets to pay benefits due. If contributions are necessary, level percentage of payroll employer contribution rates are determined using the projected unit credit actuarial cost method. Employer contribution rates are established annually by the Board of Trustees of the Plan based on an actuarial study. MHB's actuarially determined contribution rate for the year ended June 30, 2015, was 14.51% of covered payroll or \$84,718. The actuarially determined contribution rate is calculated based on the actuarial valuation at the beginning of the plan year. MHB's contributions to the Plan for the year ended June 30, 2015 were \$72,561.

June 30, 2015

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, MHB reported a liability of \$370,851 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. MHB's proportion of the net pension liability was based on a projection of MHB's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At September 30, 2014, MHB's proportion was 0.2399% which was an increase of 0.0352% from its proportion measured as of September 30, 2013.

For the year ended June 30, 2015, MHB recognized pension expense of \$67,726. At June 30, 2015, MHB reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Difference between expected and actual experience	\$ -	\$ 6,594

Changes in proportion	47,908	-
MHB contributions subsequent to the measurement date	72,561	
·	\$ 120,469	\$ 29,193

The \$72,561 of deferred outflows of resources resulting from MHB's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Actuarial Assumptions

The total pension liability in the September 30, 2014 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date October 1, 2013

Timing Actuarially determined contribution rates are calculated

based on the actuarial valuation at the beginning of the

year.

Actuarial Cost Method Projected Unit Credit Cost Method

Asset Valuation Method 5 year smoothing

Amortization Method Rolling 30-year level dollar amortization of unfunded

liability

Discount Rate 8.00% Inflation 3.125%

Salary Increases 3.50% plus merit component based on employee's years

of service

Mortality 1994 Group Annuity Mortality Table

Discount Rate

The discount rate used to measure the total pension liability was 8.09%. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current contribution rate. Based on these assumptions, the Plan's net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on the Plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of investment expenses but without reduction for administrative expenses.

Sensitivity of MHB's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents MHB's proportionate share of the net pension liability calculated using an assumed long-term expected rate of return of 8.09%, which is the valuation assumed rate of 8.00% increased by 0.09% reflecting administrative expenses, as well as what MHB's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease			Discount	19	% Increase

H. FUNDING

Major funding for MHB is from tax revenues received from a tax levy that authorizes maximum rates of \$0.09 and \$0.19 per \$100 for the MHF and the CCSF, respectively, of assessed valuation of all taxable personal property, real estate, and manufacturing properties in the City of St. Louis.

Tax levy rates of \$0.09 and \$0.19, respectively for MHF and CCSF were established for fiscal year 2015. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31.

The City collects the property tax and remits it to MHB. Tax revenue for the year ended June 30, 2015 were as follows:

Real estate tax	\$ 8,447,728
